ABOUT OUR COMPANY

iKantam is a mobile, web application and e-commerce development company with main headquarters in Minsk, Belarus (Europe) and a staff of 30+ from local universities. Our team helps business owners & technology entrepreneurs implement their vision by utilizing strong business experience, technical skill and creative ideas.

Together with our wide range of customers that include startups, marketing agencies, IT consultants, and established businesses, we define top project priorities that the most suitable for each client. This includes time to market strategies (minimum viable product), and cost cutting initiatives with a bug free focus. We also emphasize the most efficient ways to accomplish these projects to save you time and money.

In our portfolio we have a large number of successful e-commerce businesses and startups launched in the US and European markets.

Our skilled team of UI designers and Engineers can deliver the most effective product based on your idea or specifications.

E-COMMERCE SERVICES: CUSTOM, MAGENTO & SPREE

iKantam e-commerce services include:

- custom e-commerce solutions from the ground up: C2C, B2C & B2B marketplaces, flash sales, group buying, deal sites, subscription and many more
- website development based on Magento (PHP/Zend) e-commerce platform with Certified developers on board
- providing a wide range of plug'n'play solutions to reduce the time/cost of your project
- Spree Commerce (RoR) development, design and maintenance

Whether you are starting a new project or maintaining a current one iKantam has a track record for delivering results and finding the right solution for business! Your business success is our goal!

WE DELIVER CUSTOM E-COMMERCE SOLUTIONS, MAGENTO & SPREE BASED

MAGENTO DEVELOPMENT

Magento is a leading eCommerce platform. More than 250,000 merchants worldwide put their trust in Magento's eCommerce software. Stand out from the crowd with an enterprise-level commerce solution tailored to fit your needs. iKantam is an official Magento solution provider contributing free and premium extensions to the Magento Connect marketplace. We have an in-house team of Certified Magento developers with extensive experience completing custom Magento e-commerce projects of varied complexity.

We provide Magento extension/module development services, custom theming as well as Magento site development from scratch. We also provide Magento version upgrades with expertise including: Magento Community, Enterprise editions and Magento ver. 2.0

You can find our extensions at:

TESTIMONIALS

“We are a used furniture marketplace based in New York City. We were trying to find the best way to buy and sell used furniture as well as to create a website that made the process as simple as possible. iKantam built our website from start to finish. The results have been great. They’ve performed very well. Their team is very knowledgeable, especially in the e-commerce space. We’ve been working with them for years. They’re significantly cheaper than most other Web developers that you would find in the U.S.”

Reham Fagiri / AptDeco.com

“iKantam took business deliverables and converted them in to technical requirements and implemented per our instructions. They took our vision and built a website that met our expectations. Our whole application, top to bottom, was custom built by iKantam. We're really happy with the work they've done for us. When compared with American developers, you cannot beat the quality of work iKantam provides for the price they charge.”

Tyler McBeth / Vizibal.com

“Very Professional, Efficient, and High Quality Development. Completed all work successfully and promptly according to deadlines. Very good communication; all issues were addressed immediately.”

Joseph Polyak / oxbridgecoins.com

“The iKantam team is easy to reach and acts quickly. Even with the time zone difference, I never felt like I couldn't reach someone when I needed help. It's a very collaborative relationship and I enjoy working with the team--even when we're trying to fix something that's broken.”

Amber Gunn Thomas / thepatchery.com

“The company’s staff was able to tackle complex problems and quickly deliver solutions. They have a very talented team. They have taken my requirements that are communicated in non-technical terms and delivered excellent results for my company's Magento website. iKantam built my gift store from scratch: starting from prototyping stage and finishing with maintenance support. I have iKantam working on the current website changes even now.”
